Award-winning animation students...

"It just allows you to see and edit your work so easily, I don't think I could have finished in time without it."

"Absolutely improves the quality of my animation... I am more free to experiment."

"A necessary item to achieve the quality of animation I got."

Animation teachers...

"incredibly effective... motivates and energizes students to want to do more and better work."

"There is nothing you can get that is easier to use. You will be able to get many, many more students through the system in the same amount of time."

"I love this machine. [Students] work on the creative process and not the technical rules that guide computers"

"There is no better technology for learning animation."

Studios and independent animators...

"The LunchBox is the only machine that works as fast as me. It's indispensable for my films."

"One of the fastest and easiest products to use"

"It's indispensable for quality...wouldn't think of animating without them."
